

# How to email a set list and all files

This article will show you how to email a zipped file containing a set list and all files to another unrealBook user.

## Make sure set list mode is ON in the Do menu

## Choose a set list from the set list toolbar on the bottom of your screen

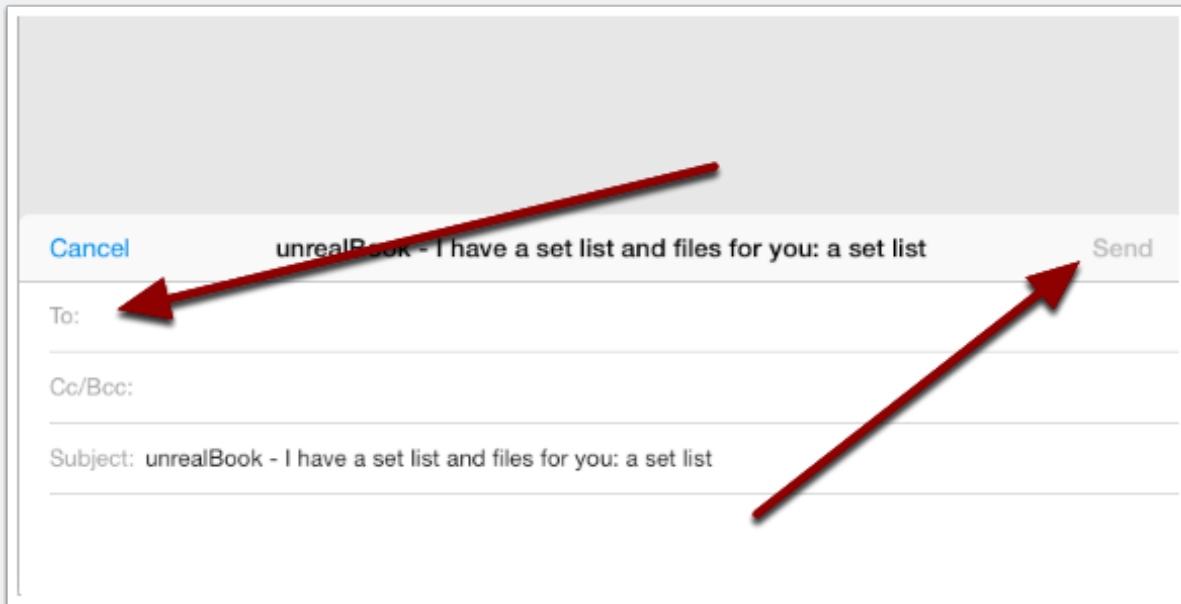

# How to email a set list and all files

**Choose Email Set List and All Files from the + button on the left of the set list toolbar.**

# How to email a set list and all files

Fill in the email **To:** field and press **Send** to email your file.

The image shows a screenshot of an email composition window. At the top, there is a header bar with a blue "Cancel" button on the left, the text "unrealBook - I have a set list and files for you: a set list" in the center, and a grey "Send" button on the right. Below the header bar are three input fields: "To:", "Cc/Bcc:", and "Subject: unrealBook - I have a set list and files for you: a set list". Two red arrows are overlaid on the image: one points from the "Send" button to the "To:" field, and another points from the "To:" field back to the "Send" button, indicating the flow of action.
